Understanding the current economic conditions...

Following the turmoil seen across the financial markets recently, the 'Cost of Living' crisis, Inflationary pressures and Energy uncertainty, it is becoming increasingly clear that the ability to successfully navigate such significant economic and geopolitical uncertainty will be key for UK businesses in the short to medium term. In order to support the region's business leaders and finance professionals with this challenge, Rhys Herbert and Chris Wilson will present an economic briefing and update that should be both insightful and informative, including key topics such as Brexit and impact on import/export, currency and the current labour market. There will be an opportunity for questions on the day.
